PRESS RELEASE: Wales-Nepal Trade Links - March 6th 2018

MI link with GnERGY indicates move into the Nepal hydro-power and UK energy market

MI has signed a Memorandum of Understanding with GnERGY creating a working alliance in the Nepal hydro-power and UK energy markets. MI will provide its engineering expertise and supply chain coordination that will also incorporate Nemein Ltd. and Cydweithio Ltd. from Wales.

MI and GnERGY believe that the working alliance between them will provide a business platform that will feed viable and profitable commercial energy projects and generation opportunities and be a strong catalyst in creating growth for both companies within the UK and Nepal energy markets.

ENDS

NOTES TO EDITORS

- **Machinists, Inc. (MI).** MI supplies from single parts to complete manufacturing systems and is a global problem solver in cutting-edge manufacturing processes and supply chain management. It supports key industries such as Aerospace, Marine, Defense, Hydroelectric, Wind Energy and Transportation.
- **GnERGY** is a new breed of community energy suppliers in the UK. Providing Gas and Electricity in an open and honest way. Truly putting the customer at the heart of everything they do as a Gurkha based enterprise being run and managed by ex-Gurkha Servicemen.
